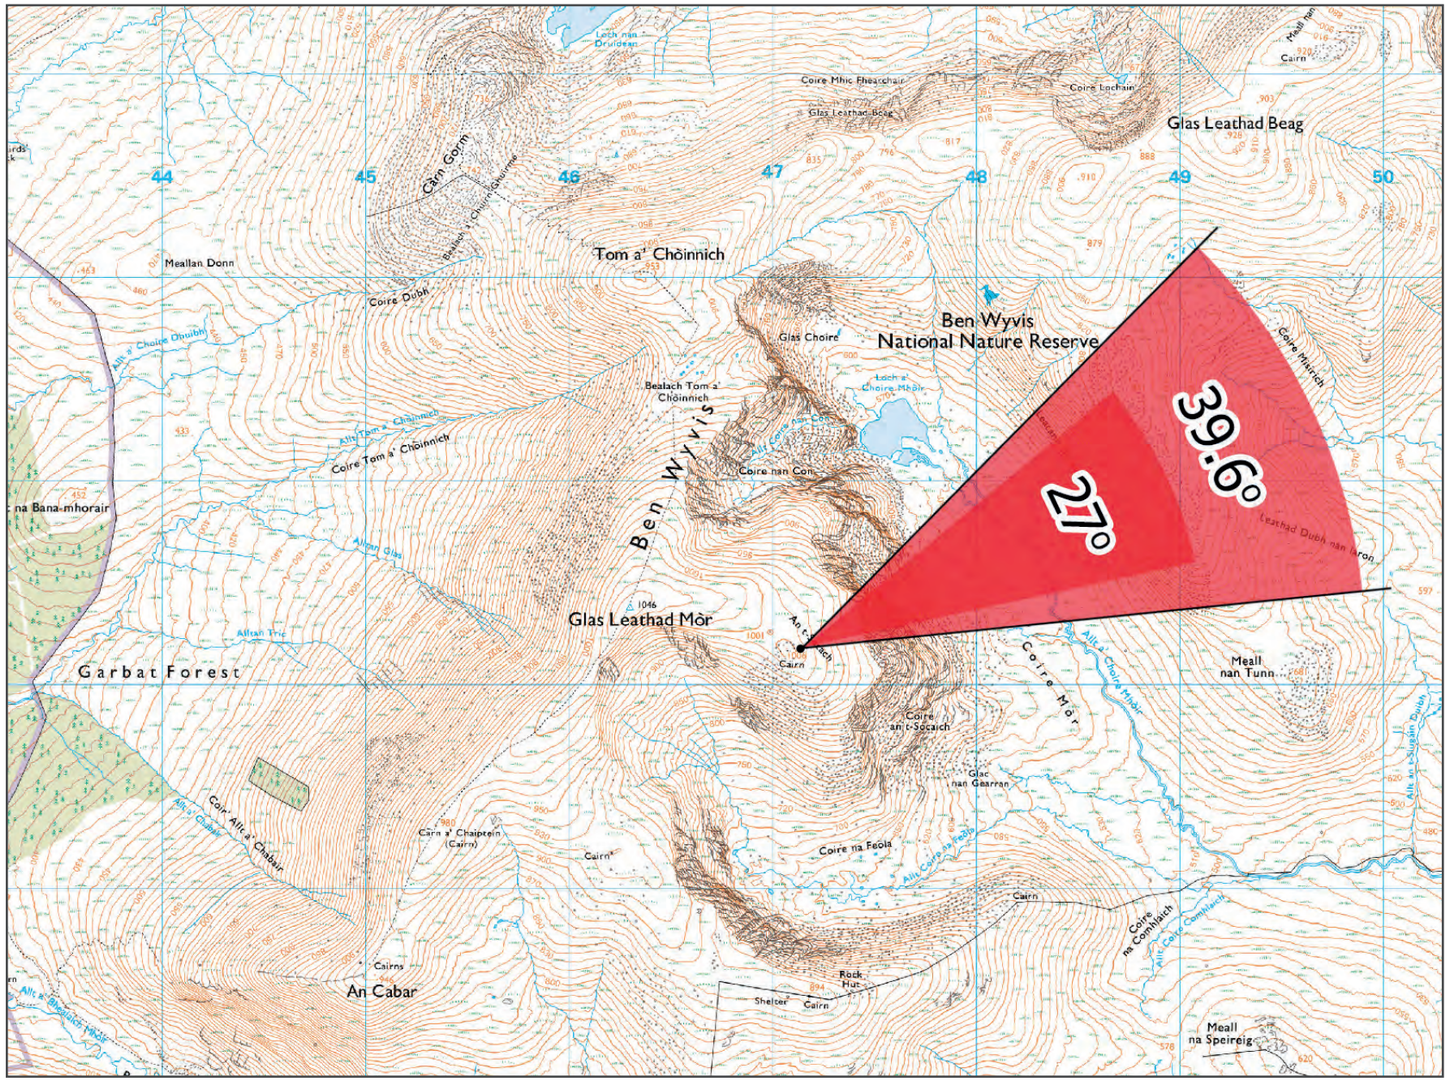

Figure 5.41j - Viewpoint 16: Ben Wyvis. Lower Summit of An t - Socach.

Grid Reference: 247096 868179 Distance to nearest turbine: 8.09km AOD: 1048m

This viewpoint is located approximately 6km East of Garbat.

Travelling north from Inverness on the A9 cross over the Kessock Bridge and head on towards the first main roundabout. At the roundabout, take the second exit for the A835 signposted towards Ullapool and Dingwall. Stay on the A835 for 35km. You'll pass Contin, Loch Garve, Garve and the Black Water Falls, before approaching Garbat. Just before Garbat look out for the Ben Wyvis National Nature Reserve Car Park on your right. Turn in and park here.

From this point on it is strongly recommended that the user sources designated mapping for this walk. There are several websites detailing walks to the summit of Ben Wyvis.

The camera location is just below the summit cairn as shown in the adjacent photograph.

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.

Strathrory Wind Farm has been photomontaged into the baseline photography to match the hours of darkness baseline photography that was taken at a later date when Stathrory was full constructed.
