his viewpoint is located approximately 4.5km Southeast of Alness.

Travel north from Dingwall on the A9 towards Tain. Just before Alness, take the slip-road off left on to the B9176 towards Ardross, Bonar Bridge and Lairg. Just after leaving the A9, look out for the turning off right for the B817 to Alness and Invergordon. Turn right here. Remain on the B817 passing through Alness and back over the A9 on towards Invergordon. As you approach Invergordon, you have the railway tracks on your left and the firth on your right. Just past a bus shelter on your right and as the road starts to bend right, look for the parking area on the right hand side. Turn in and park here.

The camera location is on the grass area as shown in the adjacent photograph.

Distance to nearest turbine: 13.70km Camera: Nikon Z6 Focal Length: 50mm vertical (27˚) x 28mm horizontal (65.5˚) Camera height: 1.5m Date: 07/05/2025 12:30

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

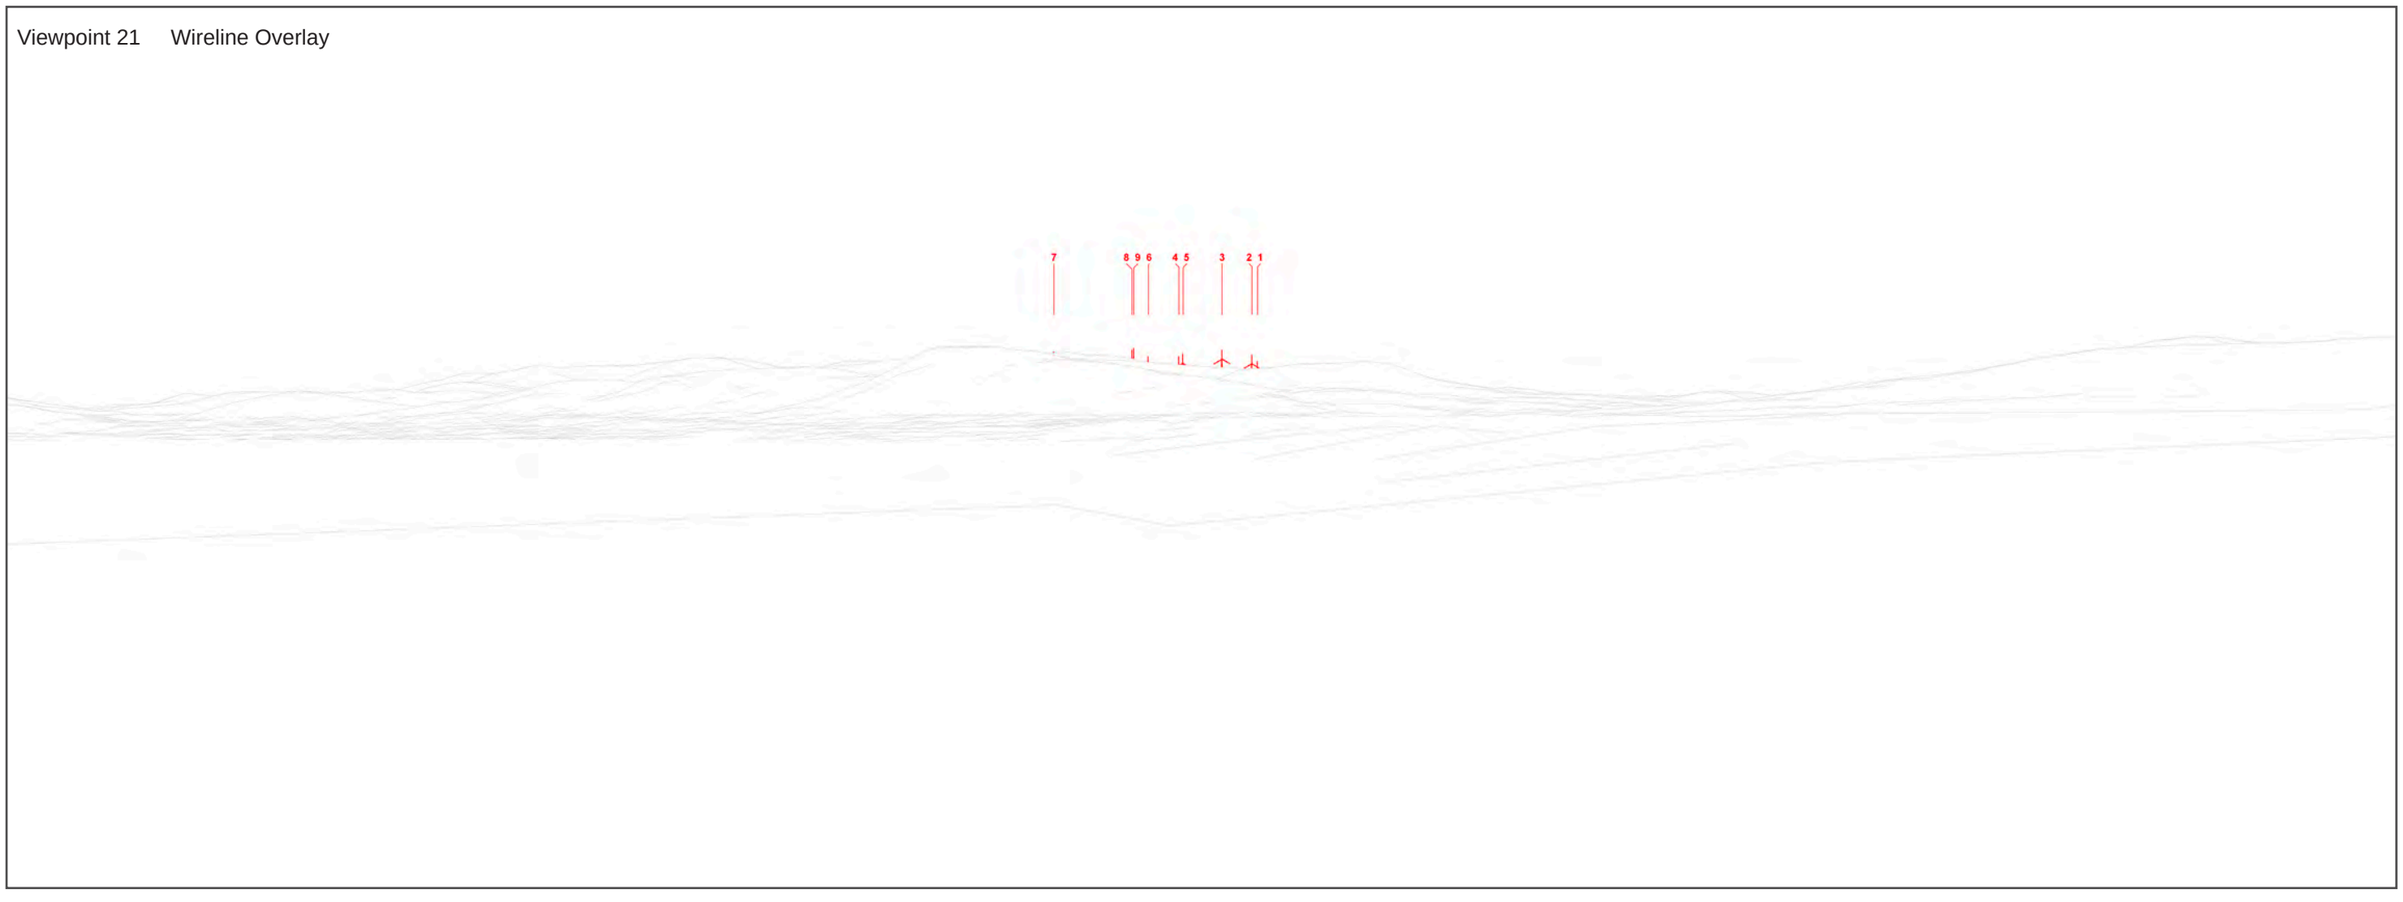

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.
