This viewpoint is located approximately 3km Northwest of Evanton.

Travelling through Evanton on the B817 turn left opposite the church in to Chapel Road. Head up Chapel Road and then turn left on to Hermitage Street by the Jubilee Hall. Continue for 3km on to Swordale. As you arrive in Swordale there is a field opening on your right opposite the entrance to the Hedgeside property. Find a suitable place to park here.

Now on foot, head up the track into the field and keep on it as it bends right up in to the tree line. As the track bends left head straight on in to the field margin.

The camera location is approximately 200m out in to the field heading in a northeasterly direction as shown in the adjacent photograph.

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

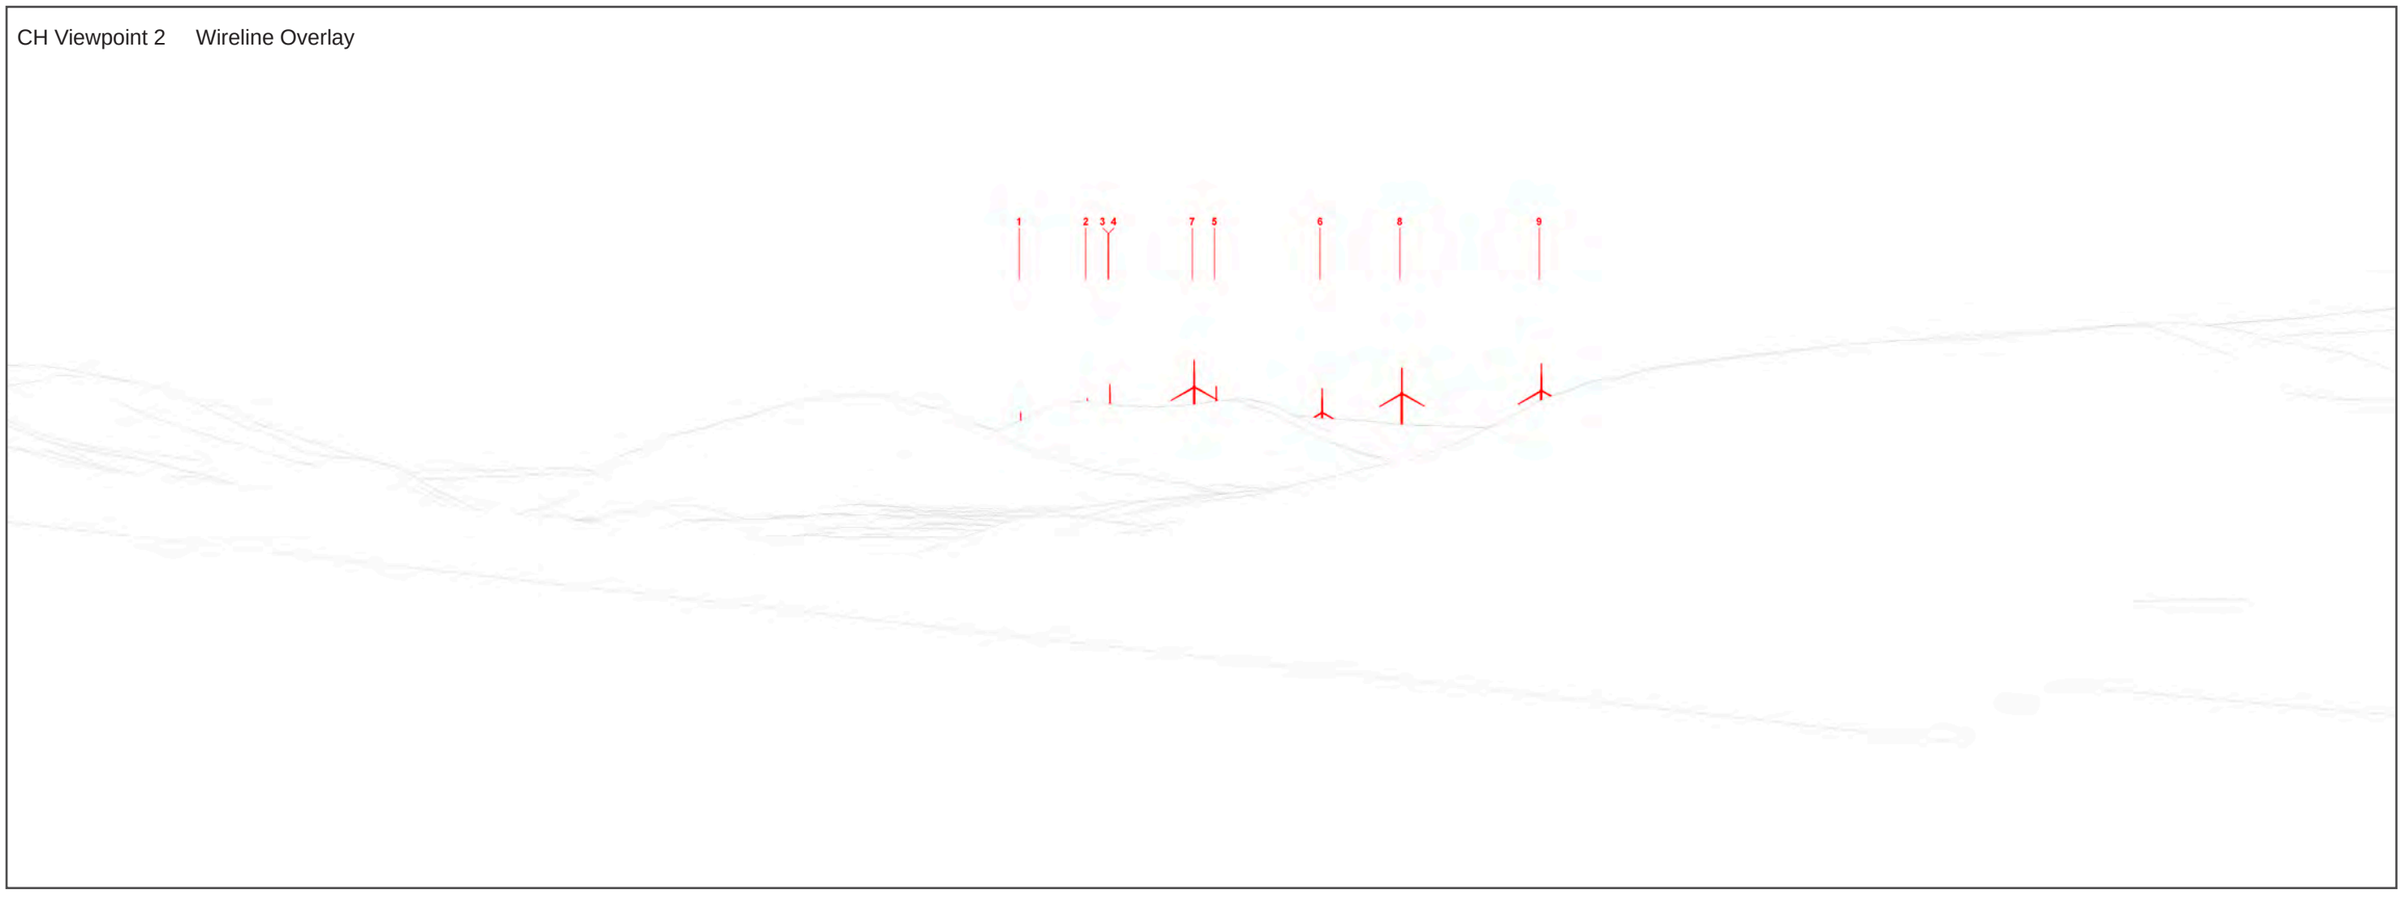

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.
