This viewpoint is located approximately 19.5km Northeast of Dingwall.

Travelling north from Inverness on the A9 cross over the Kessock Bridge and head on towards the first main roundabout. At the roundabout, take the fourth exit for the A832 signposted towards Fortrose and Cromarty. Now stay on the A832 passing Munlochy, Avoch and Fortrose. Continue beyond Fortrose for a further 6km where you will approach the farm of Glenurquhart nestled in some trees on your left. Just before these trees there is a large field on the left. Find a suitable place to park here.

Now on foot head up the field margin towards the bank of trees you can see at the top of the field.

The camera location is on the other side of the trees next to the cairn as shown in the adjacent photograph.

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

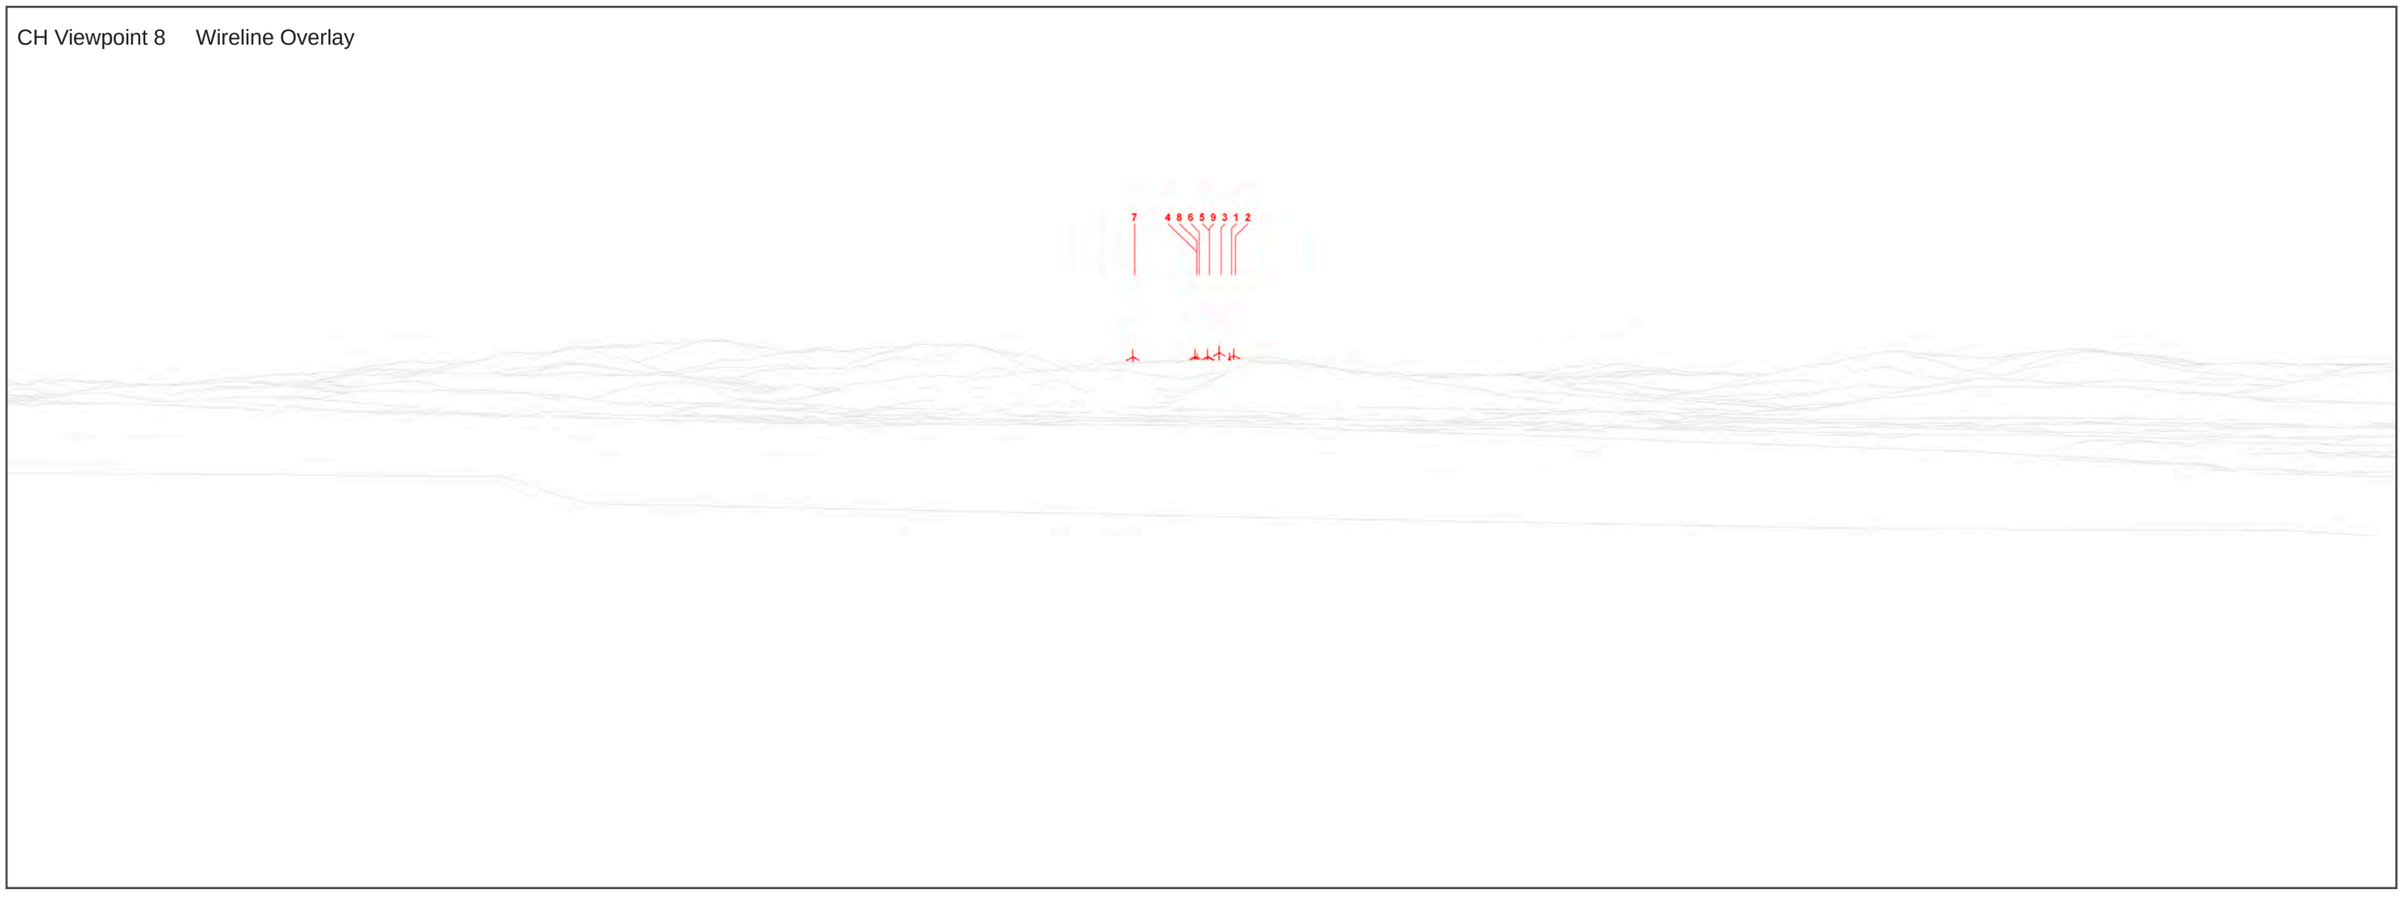

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.
